

Summary of PINC Revision and Addition Records

PINC Team Meeting

The following is a detailed description of the changes made to each affected PINC on the PINC List in May 2012:

FIELD PINCS

PERMANENT ABANDONMENT

Added PINC A-111

Change: PINC was added.

Rationale: The PINC was added to address a requirement in the new Drilling Safety Rule (RIN 1014-AA02) published in the Federal Register, Vol. 77, No. 163, Wednesday August 22, 2012.

Revised PINC A-102

Change: Step 2 of the “Inspection Procedure” section was revised by adding a new isolation method, C, and reordering the remaining steps alphabetically.

Rationale: Revision to the PINC was required to reflect a new requirement in the regulations at 30 CFR 250.1715(a)(3).

TEMPORARY ABANDONMENT

Revised PINC A-114

Change: Authority section was revised; Inspection Procedure item 2 was added.

Rationale: Revision to the PINC was required to reflect a new requirement in the new Drilling Safety Rule (RIN 1014-AA02).

Added PINCs A-121 through A-168

Change: PINCs were added.

Rationale: The PINCs were added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

SUBSEA BOP TEST/ACUATION/INSPECTION AND MAINTENACE

Added PINCs A-190 through A-201

Change: PINCs were added.

Rationale: The PINC was added to reflect a requirement in the new Drilling Safety Rule (RIN 1014-AA02).

SUBSEA BOP STUMP TEST

Added PINCs A-221 through A-224

Change: PINCs were added.

Rationale: The PINCs was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

BOP TESTS, ACTUATORS,
INSPECTIONS AND MAINTENANCE

Added PINC A-240 through A-246

Change: PINCs were added.

Rationale: The PINCs were added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

WELL-COMPLETION OPERATIONS

Added PINC C-106

Change: PINC was added.

Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC C-107

Change: Form designations were changed.

Rationale: Revisions to the PINCs were added to reflect new name of the bureau of responsibility.

BOP TESTS, ACTUATORS, INSPECTIONS, AND MAINTENANCE

Revised PINC C-135

Change: PINC title question was revised.

Rationale: Revision to the PINC title question was made to reflect new requirements of the Drilling Safety Rule (RIN 1014-AA02).

Added PINCS C-153 through C-155

Change: PINCs were added.

Rationale: The PINCs were added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC C-180

Change: Changed the term “glory-hole” to “well-cellar”.

Rationale: Revision to the PINC title question was made to reflect new requirements of the Drilling Safety Rule (RIN 1014-AA02).

BLOWOUT PREVENTER SYSTEM TESTS, INSPECTIONS, AND MAINTENANCE

Revised PINC C-183

Change: PINC was revised.

Rationale: Revision to the PINC title question was made to reflect new requirements of the Drilling Safety Rule (RIN 1014-AA02); included a new first Inspection Procedure step and renumbered the existing steps.

Revised PINC C-184

Change: PINC was revised.

Rationale: Revision to the PINC title question was made to reflect new requirements of the Drilling Safety Rule (RIN 1014-AA02); included a new first Inspection Procedure step and renumbered the existing steps.

Revised PINC C-185

Change: PINC title question and Inspection Procedure section were revised.

Rationale: Revision to the PINC title question; the addition of “during stump test” to step 1; and, inserting a new step 2 in the Inspection Procedure section were completed to better reflect the new requirements of the Drilling Safety Rule (RIN 1014-AA02).

Revised PINC C-188

Change: PINC title question and Note section were revised.

Rationale: Revision to the PINC title question and inserting a new first note were completed to better reflect the new requirements of the Drilling Safety Rule (RIN 1014-AA02).

MOVING DRILLING RIGS

Revised PINC D-120

Change: PINC title question was revised.

Rationale: Revision to the PINC title question was completed to better reflect the new requirements of the Drilling Safety Rule (RIN 1014-AA02).

CASING PROGRAM

Revised PINC D-158

Change: “IF NONCOMPLIANCE EXISTS” section was revised

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02)..

Revised PINC D-174

Change: BOEMRE was replaced with BSEE; added the words “or liner” to the PINC title question after “string”.

Rationale: Revisions to the PINCs were added to reflect new name of the bureau of responsibility.

Revised PINC D-178

Change: PINC title question and inspection procedure were revised.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

Added PINC D-179

Change: PINC was added

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02), specifically the new requirement for two barriers to flow in place before performing a negative pressure test.

BOP SYSTEMS AND COMPONENTS

Revised PINC D-213

Change: Deleted the phrase, “MASP Installed” and substituted in “Maximum Anticipated Well-Head Pressure” where needed.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02) and to focus the PINC language around the item being inspected.

Revised PINC D-226

Change: Removed “BOEMRE” and replaced it with “BSEE”; altered the “Inspection Procedure” section

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

SUBSEA BOP SYSTEMS

Revised PINC D-240

Change: Note section was modified to expressly indicate workstring and tubing should be recognized as potential “drill pipe” that may need to be sheared.

Rationale: The note was added to make sure that the blind shear ram is capable of shearing any drill pipe in the hole under MASP.

Revised PINC D-243

Change: The words “well cellar” was substituted in place of the words “glory hole” in the PINC title question and elsewhere in the PINC.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

Revised PINC D-248

Change: Placed definitions for an autoshear and a deadman system above the Inspection Procedure section of this PINC.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

Revised PINC D-283

Change: Added authority 30 CFR 250.449(b) to the PINC; added “within 30 days of the stump test” to step one of the Inspection Procedure.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

Revised PINC D-290

Change: Replaced “BOEMRE” with “BSEE”

Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

Revised PINC D-416

Change: Added “AND/OR RISER” to the PINC title question; added “volumes and rates of” to step 2.d. of the Inspection Procedure between the words “monitor” and “fluids”.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

Revised PINC D-463

Change: Replaced “BOEMRE” with “BSEE” in the form designations in the Note section inserted on the PINC.

Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

BOP TESTS, ACTUATORS, INSPECTIONS, AND MAINTENANCE

Revised PINC D-500

Change: Changed the API RP 53 reference in the title question from 17.10.1 and 18.10.1 to 17.10 and 18.10, respectively. Added “for subsea stacks, or before well operations on surface stacks” to the end of the Inspection Procedure section text.

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02).

Revised PINC D-501

Change: Changed the API RP 53 reference in the title question from 17.10.3 and 18.10.3 to 17.10 and 18.10, respectively. Deleted “of your last major inspection, whichever is longer” from the end of the Note included in the PINC and replaced it with “the records are created or longer if directed by BSEE.”

Rationale: Revision to the PINC was required to reflect the changes in the Drilling Safety Rule (RIN 1014-AA02) and to ensure the reference included the all of the appropriate information.

Revised PINC D-502

- Change: Changed the API RP 53 reference in the title question from 17.11.1 and 18.11.1 to 17.11 and 18.11, respectively.
- Rationale: Revision to the PINC was made to ensure the reference included the all of the appropriate information.

Revised PINC D-503

- Change: Changed the API RP 53 reference in the title question from 17.12.2 and 18.12.2 to 17.12 and 18.12, respectively
- Rationale: Revision to the PINC was made to ensure the reference included the all of the appropriate information.

Revised PINC D-504

- Change: Changed the API RP 53 reference in the title question from 17.12.2 and 18.12.2 to 17.12 and 18.12, respectively; replaced “BOEMRE” with “BSEE”
- Rationale: Revision to the PINC was made to ensure the reference included the all of the appropriate information and to reflect the bureau’s reorganization.

SUBSEA BOP SYSTEMS

Revised PINC D-600

- Change: Deleted the phrase, “Depress test lights by pressing pushbutton on control panel” from the Note section.
- Rationale: Improve clarity of the PINC be removing an unnecessary statement.

Added PINC D-603

- Change: PINC was added.
- Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Added PINC D-604

- Change: PINC was added.
- Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

STUMP TEST

Revised PINC D-610

- Change: Replaced “BOEMRE” with “BSEE”
Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

Revised PINC D-611

- Change: Replaced “BOEMRE” with “BSEE”
Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

INITIAL INSTALLATION TEST

Revised PINC D-612

- Change: Added the phrase, “with the ROV” to the title question; replaced “BOEMRE” with “BSEE” in the title question; and, added “and verify the closure of” to inspection procedure step 1a.
Rationale: The PINC was revised to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC D-613

- Change: Replaced “BOEMRE” with “BSEE” in the title question; and, added “the closure of at least one set of blind-shear rams and” to inspection procedure step 1.
Rationale: PINC was revised to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

GENERAL

Revised PINC G-113

- Change: Replaced “BOEMRE” with “BSEE” in the title question and in Inspection Procedure step 1.
Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

Revised PINC G-115

- Change: Replaced “BOEMRE” with “BSEE” in the Note included at the end of the PINC; modified several authorities.
Rationale: Revision to the PINC was required to reflect the bureau’s reorganization and to include the necessary authority citations.

Revised PINC G-117

- Change: Replaced “BOEMRE” with “BSEE” in the Note included at the end of the PINC.
- Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

Revised PINC G-131

- Change: Replaced “BOEMRE” with “BSEE” in the title question of the PINC.
- Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

Revised PINC G-132

- Change: Replaced “BOEMRE” with “BSEE” in the title question of the PINC.
- Rationale: Revision to the PINC was required to reflect the bureau’s reorganization.

MARKING OF EQUIPMENT

Revised PINC G-251

- Change: Added authority 30 CFR 250.300(c)(4)
- Rationale: Revision to the PINC was required to include relevant authority citations.

BOP WELL-WORKOVER OPERATIONS

Added PINC W-106

- Change: PINC was added.
- Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINCs W-114 through W-213

- Change: Adjusted the authority citations.
- Rationale: The PINC was revised to reflect the insertion of a new section 615 in 30 CFR 250 and the subsequent renumbering of the previously existing sections in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-119

- Change: Added “When the tree is removed” to the beginning of the title question of this PINC.
- Rationale: The PINC was revised to better reflect the requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Added PINC W-125

- Change: PINC was added.
- Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-141

- Change: Added “THE LARGEST AND THE SMALLEST” to the title question of this PINC.
- Rationale: The PINC was revised to better reflect the requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Added PINC W-144

- Change: PINC was added.
- Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-152

- Change: Added facility shut-in (S) enforcement code and drafted new instructions under the IF NONCOMPLIANCE EXISTS header.
- Rationale: The PINC was revised to acknowledge the situation where an inspector finds there has been a successful casing pressure test but it occurred beyond the 30-day limit.

Added PINC W-153

- Change: PINC was added.
- Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-156

- Change: Added facility shut-in (S) enforcement code and drafted new instructions under the IF NONCOMPLIANCE EXISTS header.
- Rationale: The PINC was revised to acknowledge the situation where documentation indicates that each BOP component did not hold pressure for at least the required time period approved by the District Manager during a previous pressure test, but a subsequent successful test was completed.

Revised PINC W-195

Change: Modified the content and organization of the steps in the INPSECTION PROCEDURE section.

Rationale: The PINC was revised clarify the INSPECTION PROCEDURE steps and to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-196

Change: Modified the information in the Definitions section of this PINC.

Rationale: The PINC was revised to improve the clarity of the PINC.

Revised PINC W-205

Change: Modified the content and organization of the steps in the INPSECTION PROCEDURE section.

Rationale: The PINC was revised clarify the INSPECTION PROCEDURE steps and to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-208

Change: PINC title question was modified.

Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Revised PINC W-209

Change: PINC title question was modified by changing the API RP 53 citation from 17.11.1 and 18.11.1 to 17.11 and 18.11, respectively.

Rationale: Revision to the PINC was made to ensure the reference included the all of the appropriate information.

Revised PINC W-210

Change: PINC title question was modified by changing the API RP 53 citation from 17.12.1 and 18.12.1 to 17.12 and 18.12, respectively.

Rationale: Revision to the PINC was made to ensure the reference included the all of the appropriate information.

Revised PINC W-211

Change: PINC title question was modified by changing the API RP 53 citation from 17.12.1 and 18.12.1 to 17.12 and 18.12, respectively. Also, replaced “BOEMRE” with “BSEE”

Rationale: Revision to the PINC was made to ensure the reference included the all of the appropriate information and to recognize the reorganization of the bureau.

Added PINC W-212

Change: PINC was added.

Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Added PINC W-213

Change: PINC was added.

Rationale: The PINC was added to reflect requirements in the new Drilling Safety Rule (RIN 1014-AA02).

Office PINCs

GENERAL OPERATIONS

Revised PINC G-801

Change: Authorities were changed

Rationale: Authorities were added to better reflect the requirements of *Oil and Gas and Sulphur Operations on the Outer Continental Shelf – Increased Safety Measures for Energy Development on the Outer Continental Shelf* Rule (aka the Drilling Safety Rule) published Wednesday, August 22, 2012 in the Federal Register.

Revised PINC G-802

Change: Authorities were added

Rationale: Authority was added to better reflect the requirements in the Drilling Safety Rule.

RECORDS

Revised PINC G-811

Change: Five authorities were added

Rationale: Authorities were added to better reflect the requirements in the Drilling Safety Rule.

PLATFORMS AND STRUCTURES

Revised PINC G-821

Change: Inserted the word, “and”, between “inspected” and “maintained”.

Rationale: Word was added to clarify that Operators are expected to carry out all the tasks identified to ensure structural integrity for safe conduct of drilling, workover, and production operations.

Revised PINC G-822

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

BONDING

Revised PINC G-831

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC G-832

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

TRAINING

Revised PINC G-842

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC G-848

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC G-857

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC G-858

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC G-859

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC G-862

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

ACCIDENT REPORTING

Revised PINC G-892

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

ENVIRONMENTAL PROTECTION

OIL SPILL RESPONSE PLANS

Revised PINC E-802

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC E-821

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC E-822

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC E-831

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC E-832

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC E-833

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

OIL SPILL REPORTS

Revised PINC E-841

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC E-842

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

DRILLING PLAN APPROVAL

Revised PINC D-803

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

SUSTAINED PRESSURE CASING MANAGEMENT

Revised PINC P-807

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC P-808

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

COMPANY INFORMATION

Revised PINC L-851

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

CONSERVATION OF RESOURCES
INTERESTS

Revised PINC P-803

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC P-804

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

PRODUCTION RATE

Revised PINC P-822

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

WELL TESTS

Revised PINC P-832

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

CONSERVATION OF RESOURCES
(CIDs and Gas Cap Production)

Revised PINC P-840

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC P-841

Change: Exchanged “BSEE” for “BOEMRE”.
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

BOTTOMHOLE PRESSURE SURVEYS

Revised PINC P-850

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC R-851

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

GEOLOGICAL AND GEOPHYSICAL EXPLORATION PERMITS

Revised PINC O-801

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC O-803

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

DATA

Revised PINC O-811

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

Revised PINC O-812

Change: Exchanged “BSEE” for “BOEMRE”.

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made.

RENEWABLE ENERGY

GENERAL PROVISIONS

Revised PINC T-800

- Change: Changed the authority citation
- Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-801

- Change: Changed the authority citation
- Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-802

- Change: Changed the authority citation
- Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

COMPANY INFORMATION

Revised PINC T-803

- Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”
- Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

BONDING

Revised PINC T-804

- Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”
- Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-805

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-806

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

PLANS AND INFORMATION REQUIREMENTS

Revised PINC T-807

Change: Changed the authority citation

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-808

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

SITE ASSESSMENT PLAN (SAP)

Revised PINC T-809

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

CONSTRUCTION AND OPERATION PLAN (COP)

Revised PINC T-810

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

GENERAL ACTIVITY PLAN (GAP)

Revised PINC T-811

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-812

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

CERTIFIED VERIFICATION AGENT

Revised PINC T-813

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-814

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”

Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

ENVIRONMENTAL AND SAFETY MANAGEMENT INSPECTIONS, AND FACILITY
ASSESSMENTS

Revised PINC T-815

Change: Changed the authority citation
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).

Revised PINC T-816

Change: Changed the authority citation and exchanged “BOEMRE” for “BOEM”
Rationale: Change was made to bring the PINC language into conformity with the organizational changes made since previous PINC list updates were made including changes to the organization of certain entries in the Code of Federal Regulations (CFR).
