Number	r Question Is H2S present in the well? If	Response NO	Response Text
1	yes, then comment on the	NO	
	inclusion of a Contingency Plan		
	for this operation.		
2	Is this proposed operation the only lease holding activity for	NO	
	the subject lease? If yes, then		
	comment.		
3	Will all wells in the well bay	N/A	
	and related production equipment		
	be shut-in when moving on to or off of an offshore platform, or		
	from well to well on the		
	platform? If not, please		
	explain.		1
4	Are you downhole commingling two or more reservoirs?	NO	
5	Will the completed interval be	NO	
	within 500 feet of a lease or		
	unit boundary line? If yes, then comment.		
6	For permanent abandonment, will	N/A	
	casings be cut 15 feet below the		
	mudline? If no, then comment.		
7	Will the proposed operation be	N/A	
	covered by an EPA Discharge Permit? (Please provide permit		
	number in comments for this		
	question)

PAPERWORK REDUCTION ACT OF 1995 (PRA) STATEMENT: The PRA (44 U.S.C. 3501 et seq. Requires us to inform you that we collect this information to obtain knowledge of equipment and procedures to be used in drilling operations. MMS uses the information to evaluate and approve or disapprove the adequacy of the equipment and/or procedures to safely perform the proposed drilling operation. Responses are mandatory (43 U.S.C. 1334). Proprietary data are covered under 30 CFR 250.196. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. Public reporting burden for this form is estimated to average 11/4 hours per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Mail Stop 4230, Minerals Management Service, 1849 C Street, N.W., Washington, DC 20240.
