Operators (NTLs), the app any written instructions 2) A copy of this permit available to inspectors u 3) Any casing or annuli t Permitting section and re 4) A revised PE certifica changes in cement propert required per 250.1715), c less cement is to be pump	or orders of the District Mana (including all attachments) mu pon request during the permitt hat fails a pressure test or b mediated before proceeding. tion is needed if (1) the plug ies, (2) any plug's setting de	er Permit to Modify (APM/RPM), and ager. Ast be kept on location and made ed operation. Subble test must be reported to the a type changes in any way including opth (even the ones that are not ressure test changes on any plug, (4 pumped in order to isolate a

a RPM submitted to document the change. 7) At the end of this operation, a tree or dry hole tree must be installed for the purpose

of monitoring all non-structural casing annuli that are tied back to the surface. 8) Data must be submitted with the End of Operations Report (EOR) to demonstrate that the fluid left in the hole meets 30 CFR 250.1715(a)9. Corrosion inhibitor and biocide are recommended additives but not required.

9) Notify the Permitting Section at Least 24 hours in advance of beginning these approved operations AND of any required BOP tests AND of any plug testing or tagging.

10) Results of all annuli testing and plug testing must be included with the EOR.

11) WAR reports are due no later than noon each Wednesday.

12) Initial movement of CTU equipment onto the platform must be reported in eWells.

13) A pre-workover rig (or CTU, or HWU) inspection must be done prior to APM startup of the first well with that equipment.

14) The Permitting section must be notified at least 24 hours in advance of pressure testing annuli or plugs so that they might witness same. The Permitting section must also be notified of any plug tags and bubble tests for the same reason.

PAPERWORK REDUCTION ACT OF 1995 (PRA) STATEMENT: The PRA (44 U.S.C. 3501 et seq. Requires us to inform you that we collect this information to obtain knowledge of equipment and procedures to be used in drilling operations. MMS uses the information to evaluate and approve or disapprove the adequacy of the equipment and/or procedures to safely perform the proposed drilling operation. Responses are mandatory (43 U.S.C. 1334). Proprietary data are covered under 30 CFR 250.196. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. Public reporting burden for this form is estimated to average 11/4 hours per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Mail Stop 4230, Minerals Management Service, 1849 C Street, N.W., Washington, DC 20240.
