

BSEE by the Numbers

EDITION 6: JULY 2019

Telling Our Story about PIPELINES in CY 2018

BSEE's Pipeline role:

Providing regulatory oversight and enforcement of OCS pipelines to conserve offshore resources, promote safety and protect the environment.

Total miles of DOI regulated pipelines on the OCS = **27,209**

Total BOE flowing through pipelines = **812,495,455**

Number of BSEE staff dedicated to pipeline work = **16**

Number of pipelines inspected = **6,678***

Largest pipeline diameter = **42"** natural gas pipeline

Longest pipeline = **419** miles, a 36" natural gas pipeline

Deepest pipeline = **9,650** feet water depth

Farthest pipeline from shore = **290** miles

Number of completed pipeline-related BSEE research projects = **3**

Oldest active pipeline = **66** years (installed 23 August 1952)

Number of pipeline repairs BSEE approved = **150**

Number of pipeline repairs industry completed = **148****

*Includes inspections specifically for pipelines and those conducted as part of another inspection.

**Some repairs made in 2018 were approved in prior years.
