

**UNITED STATES DEPARTMENT OF THE INTERIOR
MINERALS MANAGEMENT SERVICE
GULF OF MEXICO OCS REGION**

NTL No. 2006-G07

Issue Date: March 16, 2006
Effective Date: March 16, 2006
Expiration Date: until superseded

**NOTICE TO LESSEES AND OPERATORS (NTL) OF FEDERAL OIL AND
GAS LEASES AND PIPELINE RIGHT-OF-WAY (ROW) HOLDERS
ON THE OUTER CONTINENTAL SHELF (OCS), GULF OF MEXICO
OCS REGION (GOMR)**

**Revisions to the List of OCS Lease Blocks
Requiring Archaeological Resource Surveys and Reports**

Authority

This NTL is issued pursuant to 30 CFR 250.103. The Minerals Management Service (MMS) regulations at [30 CFR 250.194, 250.203\(b\)\(15\), 250.203\(o\), 250.204\(b\)\(8\)\(v\)\(A\), 250.204\(s\), and 250.1007\(a\)\(5\)](#) require OCS lessees and operators and pipeline ROW holders to conduct surveys within areas of high archaeological potential and to submit the results to MMS. This NTL constitutes the written notice referenced in these regulations.

NTL No. 2005-G07 provides specific guidance on how to conduct archaeological resources surveys and prepare archaeological reports, and gave preliminary notice that deepwater OCS blocks on the approach to the Mississippi River are added to the list of OCS blocks requiring archaeological resource surveys and reports.

Purpose

This NTL supersedes NTL 2005-G10 by providing new additions and modifications to the list of OCS blocks that require archaeological resource surveys and reports for submittal to MMS, and the required survey line-spacing for each block. **It does not rescind NTL 2005-G07.**

Additions and modifications made through this NTL are included in Appendix 1. The complete list of OCS blocks requiring archaeological resource surveys and reports, including the blocks identified in this NTL and other previously identified blocks, is included in Appendix 2 and published on the MMS website at:

<http://www.gomr.mms.gov/homepg/regulate/environ/archaeological/surveyblocks.pdf>.

Background

The National Historic Preservation Act of 1966 (NHPA), as amended, and other applicable laws and regulations require MMS to be responsible for ensuring that archaeological resources on the OCS are not damaged or destroyed by oil, gas, and sulphur operations. Archaeological resources are any material remains of human life or activities that are at least 50 years of age and that are of archaeological interest (see definition at [30 CFR 250.105](#)).

A recent MMS study found that there are more than 2,100 historic shipwrecks in the Federal waters of the GOM. In addition to identifying the reported or known locations of these vessels, this study also assigned a location reliability rating to each of these vessels. The blocks identified below reflect additions to the archaeology block list based on recent discoveries of unidentified shipwrecks, identification of sidescan sonar targets that have a high potential to be historic shipwrecks, or the reported loss of an historic shipwreck with a location reliability of 1 (confirmed) or 2 (moderate to good).

Revisions to the List of Archaeological High Probability Lease Blocks

Attachment 1 presents the OCS blocks now added to the list of blocks currently requiring an archaeological survey and report or modifications to the survey lane spacing for blocks already on the list. Blocks comprising this list occur primarily in the Central Planning Area; however, one of these blocks is located in the Western Planning Area, and one is located in the Eastern Planning Area.

No Waiver of High-resolution Sidescan Sonar Survey Requirement

As stated in NTL No. 2005-G07 (Archaeological Resource Reports section, paragraph E), MMS **will not approve** requests to use 3-D seismic data as a substitute for high-resolution sidescan sonar data in deepwater areas. For EP's and DOCD's in deepwater lease blocks, Autonomous Underwater Vehicle (AUV) or Remote Operated Vehicle (ROV) surveys may be appropriate. Contact the MMS Social Sciences Unit (see contacts below) if you wish to discuss other survey options.

Paperwork Reduction Act of 1995 Statement

This NTL provides clarification, description, and interpretation of requirements contained in 30 CFR 250, subparts A and J. The Office of Management and Budget (OMB) has approved the information collection requirements in these regulations under OMB Control Numbers 1010-0114 for subpart A and 1010-0050 for subpart J. This NTL does not impose additional information collection requirements subject to the Paperwork Reduction Act of 1995.

Contacts

If you have any questions on archaeological resource surveys or reports, contact the individuals designated in the table below:

Regarding...	Contact...	At...	Or at...
Archaeological resource reports in EP's and DOCD's	Mr. Nick Wetzel	(504) 736-2419	Nick.Wetzel@mms.gov
Archaeological resource reports in pipeline applications	Mr. Alex Alvarado	(504) 736-2547	Alex.Alvarado@mms.gov
Conducting archaeological resource surveys or preparing archaeological resource reports	Dr. Jack Irion, Mr. David Ball, or Dr. Chris Horrell	(504) 736-1742 (504) 736-2859 (504) 736-2796	Jack.Irion@mms.gov David.Ball@mms.gov Christopher.Horrell@mms.gov
