Companies Reporting Normal Operations: ATP, Callon, ConocoPhillips, Houston Exploration, J M Huber, Linder, Magnum Hunter, Nippon, Petro Ventures, St. Mary Energy, Tarpon, Transworld, and William G. Helis

MMS is the federal agency in the U.S. Department of the Interior that manages the nation's oil, natural gas and other mineral resources on the outer continental shelf in federal offshore waters. The agency also collects, accounts for and disburses mineral revenues from federal and Indian leases. These revenues totaled nearly \$10 billion in 2001 and more than \$120 billion since the agency was created in 1982. Annually, nearly \$1 billion from those revenues go into the Land and Water Conservation Fund for the acquisition and development of state and federal park and recreation lands.
