17. INVESTIGATION FINDINGS:

On 02 November 2007 at approximately 1445 hours, at Shell Offshore Inc.'s OCS-G 12166, Mississippi Canyon (MC) Block 765, a Rigger was injured while off loading risers from the Motor Vessel (M/V) "C-Liberty" to the Noble Jim Thompson. As the Rigger was going down to bind the set of risers, a large swell on port side caused the vessel to roll and the chain to tighten which caused the binder to whip open. The binder bar struck the Rigger on the right side of his face. The Injured Person (IP) was evacuated to a medical facility and underwent surgery on 06 November 2007. When the IP will return to work is unknown at this time, but follow-up medic appointments will provide a better forecast.
