Note: There was increased reporting starting in 2004 of fluids lost in structures destroyed by hurricanes (Hurricanes Ivan (2004), Katrina & Rita (2005), Gustav & Ike (2008)).

** The CY 2010 spill in this size category is the spill associated with the Deepwater Horizon explosion that occurred on 4/20/2010; the final spill volume from this incident has not been determined at the present time.

*** The CY 2010 total and the CY 1964-2010 total for the ≥ 1,000 bbl size category does not include the volume from the Deepwater Horizon explosion since the final spill volume for this incident has not been determined at the present time.
