

CITATION

**SAFETY AWARD FOR EXCELLENCE
CAMARILLO DISTRICT
PACIFIC OCS REGION**

**EXXONMOBIL PRODUCTION COMPANY
PLATFORM HARMONY**

This award is presented to ExxonMobil Production Company, in recognition of its accident-free record and for the professional manner in which it conducted production operations on Platform Harmony for the period January 1 through December 31, 2001.

During the rating period, Minerals Management Service (MMS) personnel conducted 11 unannounced partial production inspections and 1 announced complete (annual) production inspection with only 1 minor incident of noncompliance (INC) detected. Results of these inspections showed that ExxonMobil had an excellent safety record in dealing with high concentrations of hydrogen sulfide gas and overall production operations in accordance with MMS regulations and the criteria set up for the SAFE award program. Procedures to promote communication and operational review among production personnel were excellent. ExxonMobil was extremely cooperative with MMS personnel and provided support when needed. Management and field personnel were exemplary in awareness and knowledge of Federal, State, and County operating regulations.

The Secretary of the Interior and the Director of Minerals Management Service join me in commending ExxonMobil Production Company for its part in the development of offshore mineral resources while maintaining a constant awareness for the safety of personnel, protection of the environment, and adherence to operating regulations.

**J. Lisle Reed
Regional Director
Pacific OCS Region**
