

**CITATION**

**SAFETY AWARD FOR EXCELLENCE  
CALIFORNIA DISTRICT  
PACIFIC OCS REGION**

**DOS CUADRAS OFFSHORE RESOURCES  
PLATFORMS B, C, AND HABITAT**

**This award is presented to Dos Cuadras Offshore Resources (DCOR) for the excellent manner in which it conducted production operations on Platforms B, C, and Habitat for the period January 1 through December 31, 2005.**

**During the rating period, Minerals Management Service (MMS) personnel conducted five production inspections at each of these facilities with only one, minor incident of noncompliance detected. The inspections included a detailed annual inspection of all safety devices on each platform. Results of these inspections demonstrated that DCOR had an outstanding record in conducting overall operations in accordance with MMS regulations and the criteria set up for the SAFE program. DCOR maintained a high level of preventative maintenance, safety and environmental protection awareness and excellent housekeeping practices on the cited platforms. Throughout the year, field and management personnel have consistently demonstrated a keen awareness, knowledge, and application of all pertinent regulatory requirements. DCOR was cooperative with MMS personnel and provided support when needed.**

**The Secretary of the Interior and the Director of Minerals Management Service join me in commending DCOR for its part in the development of offshore minerals resources while maintaining a constant awareness for the safety of personnel, protection of the environment, and adherence to operating regulations.**
