

BSEE Standards Development Section

Wilbon A. Rhome, Chief, Standards Development Section

Bureau of Safety and Environmental Enforcement

A Partnership Between Government and Industry

November 14 – 15, 2012

BSEE Expectations of Workshop

I do want to outline some expectations of this workshop:

- To encourage people to start a conversation
- To be open, expressive and communicative
- This workshop is meant to be a starting point to start discussions

BSEE Expectations of Workshop

- Again, we want this workshop to encourage a free flow of conversation through discussions, questions and meeting each other to start those conversations.
- At the end of the day (both today and tomorrow) we will hand out a workshop evaluation form to get your thoughts and ideas for future workshops.
